## Education

### *Try scuba—or go Pro...*

We want you to become comfortable and confident at each level of certification.

We use smaller classes and focus the instruction to your learning style. This will help you build and retain the knowledge you need.

All of our education programs are designed by the Professional Association of Dive Instructors (PADI). This is the most preeminent and well recognized scuba diving training agency in the world.

Classes offered range from a Discover Scuba in the pool all the way through Divemaster. We have classes for kids as young as 8 years old.

The scuba diving equipment our students use is the best gear made by Scubapro. This well designed line will help make your learning experience relaxing and fun.

## Class Structure

Florida Underwater Sports is very flexible in structuring classes to fit student's needs. By combining a variety of different teaching methods, we can craft a program to fit your style of learning.

We can also create a private class that fits your schedule, or allows you to train with your friends and family.

A quality experience that will be remembered for a lifetime.

We have traditional books and lectures, multimedia DVDs, as well as on-line training available.

## Equipment

### *Deep down you want the best..*

In the early 1960's Scubapro first appeared in the diving world with many innovations for diving that are still being used today. Visit Florida Underwater Sports, Sarasota's only exclusive Scubapro dealer, to see the latest and best recreational diving equipment to meet your scuba and snorkeling needs.

Our goal is to match the equipment to the diver and make your experience relaxing and fun. When you purchase Scubapro equipment from us, we will train you on your gear at no extra cost.

Scubapro regulators come with free parts for life every time you bring your regulator in for annual service.

## Dive Accessories

We stock a full line of scuba accessories from major manufacturers: Underwater Kinetics, Trident, and McNett.

## Rentals

Are you missing a critical piece of dive equipment, but still want to go diving? Florida Underwater Sports has top of the line rental dive equipment at reasonable rates.

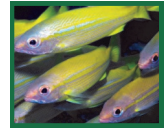

## Service

Our focus is on providing the best service for your equipment. We have trained technicians on staff to complete all necessary repairs on your Scubapro gear. Whether you are here on vacation or a Sarasota resident, we know that your time is valuable. The repair department at Florida Underwater Sports uses the latest tools and techniques and prides itself on an extremely fast turn around. That means you get back into the water when you want to.

## Excursions

### *Go Diving*

Choose from a variety of options:

- Beach or charter
- Throughout Florida or international destinations
- Group or private
- Have a trip in mind—let us arrange it for you

**Artificial reef dives:** These trips go out to a number of artificial reefs, wrecks, and shelves. Did you know that the reef system includes sunken barges, Army tanks, boxcars and many other items?

**Shark tooth expeditions:** Looking for the really big teeth? Have a great relaxing time in the water looking for fossilized shark's teeth. These make a great holiday gift. Charter or beach dive available.

**Spear fishing only charters:** Our captains are highly experienced spear fishers in the area and we can set up a spear only charter based on what you want.

**Schedule:** Beach dives can be scheduled on fairly short notice. Charter dives must be scheduled further ahead of time and are subject to availability. Rental gear is available to rent at a 10% discount off of the regular rental schedule.
